## Practical examples (A02)

Being able to make A02 applications to movement and performance examples is a critical feature of success in this paper. 26 marks come from A02 on average and you need to be able to make good quality examples to achieve these marks.

We recommend the **EIO** method. This means that you:

1. Give your **Example**.
2. State the **Impact** of the concept.
3. State the **Outcome** that it produces.

What not to do...

Agility is critical in basketball when dribbling.

What to do...

Agility is critical in basketball when dribbling the ball, as the player can maintain control whilst quickly changing direction and, therefore, dribble in and out of spaces around defenders without losing possession of the ball.

Reaction time is at the start of a 100m race.

What not to do...

Passing in football is an open skill.

What to do...

Passing in football is an open skill due to the environment around the player such as the position of teammates and opponents always being unique. The impact of this is the player must make a pass at a specific angle, height and pace to suit that situation.

An example of when manual guidance would be used is when a table tennis coach moves a player.
