Practical examples (AO2)

Being able to make AO2 applications to movement and performance examples is a critical feature of success in this paper. 20 marks come from AO2 on average and you need to be able to make good quality examples to achieve these marks.
We recommend the EIO method. This means that you:

1. Give your Example.   2. State the Impact of the concept.   3. State the Outcome that it produces.

What **not** to do...	What to do...
One example of someone who influenced the Olympic movement is Pierre de Coubertin.	Pierre de Coubertin influenced the Olympic movement by studying elite English public schools and meeting with people like Dr Brooks which inspired him to recreate an Olympic festival in Athens in 1896.
One reason a player might become violent is frustration at a referee.	Write your example here.
